

Encode INFLUENZA B. ID Kit

Item code: EIL-V-INFB

Technology: qPCR / Real Time PCR/ PCR

Manufacturer: ENCODE

Size: EIL-V-INFB-10 Rxns

EIL-V-INFB-25 Rxns

EIL-V-INFB-50 Rxns

EIL-V-INFB-100 Rxns

BACKGROUND:

INFLUENZA is a contagious viral infection and can only pass from human to human. A common indicator of the influenza B virus is a fever, often more than 100°F (37.8°C). Common signs of an influenza infection includes coughing, stuffy nose, sneezing, sore throat, fever, headache, fatigue and body aches It is highly contagious and in more serious cases can cause life-threatening complications. So, there is an urgent need for rapid, accurate, and sensitive methods for the detection of *INFLUENZA B* is mandatory.

KIT DESCRIPTION:

Detection of RNA of the matrix protein gene of influenza B virus.
